EXPERIENCE

Survei / Product Design Intern

Working with the UI / UX team to create an admin dashboard for Survei, a real estate web app. Creation of user flows, wireframes, and design concepts.

Dojo / UI Designer

Contracted development of branding and user interface design aesthetics for Dojo, a collaborative personal training app. Building wireframes, storyboards, and interactive prototypes in Figma to illustrate app flow.

Innovative Design / Visual Designer

Reviewing clients' existing brand identity, and working with a design team in an agency environment to create branding assets for various USC organizations.

MASH Magazine / Web Design Chair

Web design and development for MASH (React.js), an online publication highlighting the intersection of fashion and business with a focus on sustainability, diversity, and design.
